PROFESSIONAL SUMMARY

Aspiring developer with hands-on practice building responsive web applications using JavaScript, TypeScript, React, and Next.js. Familiar with REST API integration, reusable UI components, and Git/GitHub, with foundational knowledge of Node.js, Express.js, and MongoDB. Eager to strengthen programming fundamentals, learn new technologies, and contribute to collaborative software development projects.

TECHNICAL SKILLS

Programming: JavaScript (ES6+), TypeScript; foundational C programming
Web Development: HTML5, CSS3, React.js, Next.js, Tailwind CSS, responsive design
APIs & Backend: REST API integration, Node.js, Express.js, MongoDB (foundational)
Tools & Version Control: Git, GitHub, VS Code, Vite, npm/pnpm
Authentication: Better Auth (project experience)

PROJECTS

MovieHub — Movie Discovery Web App | React, TypeScript, Vite, TMDB API, Better Auth, Tailwind CSS [Live demo link: https://movie-app-six-hazel.vercel.app/] | [GitHub repo link: https://github.com/tausifahamedsabab/movie-app]

- Built a responsive movie discovery interface with trending, top-rated, upcoming, genre, and search views using TMDB API data.
- Implemented authentication flows and interactive favorites/watchlist features as part of the application.

Bazar-Dor — Market Price Web App | Next.js, React, TypeScript, Tailwind CSS, REST API [Live demo link: https://bazar-dor-dun-nine.vercel.app/] | [GitHub repo link: https://github.com/tausifahamedsabab/b14-a7-bazar-dor-project]

- Developed category-based pages to display Bangladeshi agricultural and commodity prices from API data.
- Created reusable UI components and responsive layouts for browsing product and market-price information.

FitLog — Fitness Tracking UI | Next.js, React, JavaScript, Tailwind CSS [Live demo link: https://b14-a6-fit-log-project-delta.vercel.app/workout] | [GitHub repo link: https://github.com/tausifahamedsabab/b14-a6-fit-log-project]

- Built a dashboard-style interface for viewing workout routines and organizing personal fitness plans.

ADDITIONAL INFORMATION

English: Intermediate working proficiency; actively improving technical and spoken communication.
Career Focus: Web application development, software engineering fundamentals, and collaborative project work.
Learning Goal: Open to learning C#/.NET and adapting to the team's technology stack.
